Your Mentee, Katie, is 14 almost 15 years old. She lives at home with her mother and father and younger brother. Her parents both work full time and have what seems to be a happy home life. Katie has been recently caught by her parents sneaking out of the family home and drinking alcohol, there are also concerns relating to her school attendance and her overall attitude is withdrawn and there is concern for her mental health. As Katie's mentor how do you think you could best support her?
